## **OPERATING INSTRUCTIONS**

**MUST BE READ PRIOR TO OPERATING THIS MACHINE**

### **Combination Turf Groomer**

**Ref: 4GCS**

## DESCRIPTION

The three-point linkage mounted combination turf groomer is a multi-tasking unit to groom pitches etc prior to use or at the finish of play. It is also an ideal unit for general pitch grooming/maintenance. The leading star shaped slitter bar pierces the surface to increase drainage. The brush and rake bars tickle over the surface to enhance the quality and appearance of the area. The rear roller firms up the surface and gives that much sought-after striping.

All three tools can be adjusted by individual jack legs for depth and pressure.

A weight tray is incorporated in the design to allow top weight to be added if required. This tray also acts as a useful general-purpose carrier.

## SPECIFICATIONS

Working width	1500mm (60")
Overall Width	1700mm (68")

## SAFETY INSTRUCTIONS

- Never leave the unit where someone could trip or walk into it.
- Never allow people to ride on the frame.
- Be aware of your surroundings and do not use the unit in close proximity to other people.
- Do not exceed speeds of 15kph
- Do not turn whilst the implements are in contact with the ground

If in doubt, please call the SCH customer help line at **01473 328272**.

## MAINTENANCE

1. Clean the unit after use
2. Check all nuts and bolts are tight
3. Periodically grease jack legs

## SPARE PARTS AVAILABLE

Wheel Complete	2
Wheel Bearing	2
Spring Tines	14
Brush	2
Bearings roller	2
'D' clips for jack legs	8

## OPERATION

1. Use the bottom and top link pins to attach the unit to your tractor
2. Ensure the unit is level
3. Adjust the implements by way of the jack legs, remove the 'D' clips to do this
4. When desired height is achieved replace the 'D' clips
5. The unit is now ready to use
